- 2017–2019 **SSLC**, SRK Matric Hr Sec School, Salem, Percentage – 88

Projects

Expense Tracker Developed an Expense Tracker web application that provides separate logins for users and allows them to manage and visualize their monthly expenses. The application features a user-friendly interface for adding and deleting expenses, as well as generating visual reports and charts to help users track their spending patterns over time. Tools used include XAMPP for the development environment, PHP for server-side scripting, and MySQL for database management.

Tools Used XAMPP, PHP, MySQL.

CGPA Calculator Designed and developed an interactive web application aimed at facilitating the efficient calculation and management of cumulative grade point averages (CGPA) for students. This user-friendly platform streamlines the process of inputting grades, calculating CGPA, and providing insights into academic progress. Tailored for students and educators alike, this intuitive tool enhances user experience by offering seamless navigation and comprehensive features for academic success.

Tools Used HTML, CSS, and JavaScript.

Technical Skills

Programming Languages Java

Web Development HTML, CSS, JavaScript
